1. TRA VISIONS 2026 Awards

1.1 Award Types

For TRA 2026, four types of Awards will be delivered:

- **Young Researcher Awards** – Recognising undergraduate students and early-stage researchers, for their outstanding research in transport studies.
- **Senior Researcher Awards** – Acknowledging established researchers for achievements and excellence in European research projects.
- **Special Honorary Award** – Recognising a senior respected researcher in the transport sector for a noteworthy and widely acknowledged contribution to research and innovation.
- **Host Award** – Delivered to the best paper author aligned with the conference theme “Re-Generation in Transport”.

1.2 Award Categories

The TRA VISIONS 2026 Awards cover the following six transport categories, per transport mode: Road, Rail, Waterborne, Airborne, Cross-modal Passenger transport, Cross-modal Logistics.

Applicants are requested to select one of the six categories that best align with their contributions. In Table 1, award categories and an indicative list of keywords are presented.

Table 1. Award categories (per transport mode) of the TRA VISIONS 2026

TRA VISIONS 2026 Award categories (per transport mode) and keywords	
Road	Connected and Automated Vehicles; Road Infrastructure; Traffic Management, Road Safety; Shared Mobility; Active Modes; Electric Vehicles; Electrification of Road Transport; Grid Integration; Batteries; Sustainable Fuels; Circular Economy; Alternative Materials; Life Cycle Assessment; Software Defined Vehicles; Artificial Intelligence, Digitalisation
Rail	High-Speed Rail and Beyond; Rail Traffic Management, Operation; Rail Vehicles and Infrastructure; Smart Railways, Autonomous Trains; Externalities of Railways; Freight Rail and Terminals; Railways Resilience, Safety and Security; Urban, Suburban and Rural Rail Networks; Rail Passenger Experience; Railway Stations; Railways Economics and Policy
Waterborne	Use of sustainable alternative fuels in waterborne transport, Energy efficiency of waterborne transport; Electrification of waterborne transport; Digital waterborne transport (digital includes automation); Design and retrofitting of waterborne vessels; Freight transport; Passenger transport; Shipyards and equipment manufacturers; Ports and infrastructure; Safe and secure waterborne transport; Green shipping corridors; All ship types (from inland waterway transport to intercontinental)

Airborne	Air Traffic Management; Sustainable Aviation Fuels; Electric Aircraft; Hybrid Aircraft; Urban Air Mobility; Airport Innovations; Drone Systems; Decarbonization in Aviation; Air Passenger Experience
Cross-modal: Passenger transport	Public Transport; Multimodal Transport; Integrated Policy and Planning; New mobility services including Mobility-as-a-Service; Seamless Connectivity; Smart and Integrated Infrastructure; Transport Hubs; Behavioural change; Active mobility
Cross-modal: Logistics	Freight Transport decarbonization; emissions measuring and reporting, automation; Physical Internet; Interconnected Logistics; Resilient logistics networks; Ports and hubs; Intermodality/Synchromodality; Transport modes integration in logistics networks, digital technologies (AI, 5G, Digital Twins...) applications in freight transport and logistics; Data exchange and data sharing, Urban logistics, Last-mile Delivery, Integrated Passenger and Freight Systems

Applicants for the Young Researcher Awards must submit a paper to the TRA 2026 technical programme as part of their application.

Aligned with the TRA 2026 key theme, *Re-Generation in Transport*, the conference topics focus on horizontal — i.e., not mode-specific — transport challenges. Applicants must select the research topics and subtopics, as defined in the Call for Papers, that best describe their contribution (Table 2). Brief descriptions of research topics of the TRA Conference is available in Table 2. Detailed descriptions can be found in the Call for Papers.

In their statements, applicants for the Young and Senior Researcher Award(s) shall explain how their research relates to one (or more) of the research topics defined in the Call for Papers.

Table 2. Research Topics of the TRA 2026 Conference.

TRA 2026 research topics and subtopics	
User Centered Mobility	Transport Policy; Transport Safety; Inclusive Mobility; Active Travel Modes; Shared Mobility Solutions.
Green Mobility and Decarbonization	Zero Emission Vehicles; Electrification and Alternative Fuels; Greening Freight Transport; Circular Economy; Climate Neutral and Smart Cities
Planning and Operation	Resilient Transport Systems; Urban Infrastructure Management; Innovative Logistics Solutions; Decision Support Analysis; Transportation Economics
Transport Digitalization	Automated Mobility; Connected Transport Systems; Big Data Analysis; Mobility as a Service; Predictive Transport Solutions

2. TRA VISIONS 2026 Awards Benefits

Participating in the TRA VISIONS Awards offers a unique opportunity for researchers to gain recognition, visibility, and support while showcasing their contributions to transport research and innovation. Winners and finalists benefit from a prestigious platform that enhances their professional standing, fosters networking opportunities, and provides tangible rewards to further their research and careers.

Finalists benefit from comprehensive support, including waived conference fees, a trophy and a certificate acknowledging their achievement, ensuring formal recognition of their contributions.

For the Young Researcher Awards, monetary prizes are awarded per category, with €5000 for first place, €3000 for second place, and €2000 for third place.

The table below summarises the awards, benefits, and responsibilities for each category:

Table 3. Summary of Awards and Benefits

Awards and related benefits	Partner responsible	Young Researcher Awards	Senior Researcher Awards	Special Honorary Award	Host Award
Winners categories		3 winners per category ROAD, RAIL, WATERBORNE, AIR, CROSSMODAL Passenger Transport and CROSSMODAL Logistics	1 winner per category ROAD, RAIL, WATERBORNE, AIR, CROSSMODAL Passenger Transport and CROSSMODAL Logistics	1 winner Regardless of mode	
Prizes	Sponsors	Trophy and certificate Money prizes per category: 1 st (5000€) 2 nd (3000€) 3 rd (2000€)	Trophy and certificate No monetary prize	Trophy and certificate No monetary prize	
Conference fee	CSA & TRA organisers	Waived for full conference	Waived for full conference	Waived for full conference	
Conference visibility	TRA organisers	Part of the programme Awarded at a high-profile event during the conference Acknowledged on website and social media			

3. TRA VISIONS 2026 Senior Researcher Awards – Process and Evaluation Criteria

- **Target group**

The Senior Researcher Awards are aimed at researchers with at least 10 years of experience in their field and a proven track record of conducting EU relevant research.

- **Evaluation Criteria**

Table 4. Senior Researcher Awards – evaluation criteria

Criteria	Points	Threshold
Relevance of the research career conducted in contributing to (at least one of) the four key TRA2026 topics	20 pt	12 pt
Practical implementation and industry applications of the research	20 pt	12 pt
European relevance and/or impact of the research at EU policy level	20 pt	12 pt
Research track record of the applicant (top 10 achievements during last 10 years)	20 pt	12 pt
Amount and proportion of EU fundings (list of projects and role, up to 10 years before the submission date)	20 pt	12 pt

- **Submission material**

Table 5. Senior Researcher Awards – required submission materials

Material	Description
Title and Keywords	<p>Provide a concise and descriptive title that reflects your research work portfolio relevant to the scope of the TRA VISIONS Senior Researcher Awards.</p> <p>In the Keywords field, list a few key terms that best represent the main research themes, areas of expertise, or contributions included in the application.</p>
Statement (2000 characters max for each question)	<p>Provide responses to the following questions:</p> <ul style="list-style-type: none"> • How well does your research address key transport challenges related to at least one of the TRA2026 key topics? • Please describe the practical feasibility and potential implementation of your research at an industry level • Elaborate on how your research can contribute to influencing transport policy and decision-making within the European Union

Research Track Record	Include details on your publication track record, patents, and research leadership of the past 10 years
List of EU projects	Provide a list of relevant EU projects of the past 10 years, including a link to the CORDIS project page, details on the amount of funding and your role

- Submission and Evaluation Process**

The submission process for the **Senior Researcher Awards** will take place in two stages:

Expression of Interest – Applicants can indicate their interest in the competition through the TRA 2026 conference track.

Full Submission – Applicants shall submit a complete set of the required submission materials. The submission will be open until September 15, 2025. **Submission deadline has been extended until September 30, 2025.**

The evaluation process for the **Senior Researcher Awards** will take place in three stages:

Eligibility check – Entries will be reviewed for eligibility to create a longlist for each transport category.

Expert evaluation – At least two independent transportation experts will assess the longlisted entries based on the provided evidence and selection criteria. This stage will result in a shortlist of top 3-5 applicants for each transport category. Before finalising the shortlist, organisers may request additional information from the shortlisted applicants.

Shortlisting workshop and final selection – A dedicated shortlisting workshop will be held for the final selection. The judging panel, composed of TRA VISIONS 2026 Consortium members, transportation experts, stakeholders involved in TRA 2026, Advisory Board members, and representatives from the European Commission, will use their expert knowledge and the published selection criteria to select six winners – one for each transport category.

4. TRA VISIONS 2026 Senior Researcher Awards – Rules

1. Eligibility

- Each applicant may submit only one entry for the award.
- Entries must be submitted via the TRA 2026 Conference platform (EasyChair) under the Senior Researcher Award track.
- Entries must be based on results from EU-funded transport-related research projects.
- Entries must be in English.
- Previous winners are not eligible to re-apply but may be considered for the Special Honorary Award.
- Previous applicants, including those shortlisted, may reapply to the competition.

2. Submission requirements

- Submissions must be made via the TRA 2026 Conference submission platform under the Senior Researcher Award track.
- Any entry must be written in clear, academic English.
- Applicants must select one (and only one) of the outlined award categories for their submission. While the submitted material may cover multiple transport modes, each entry will be considered under only one designated category. The competition organisers reserve the right to reassign an entry to a different transport mode if deemed misclassified.
- Submissions must include a Title, reflecting the applicant's portfolio of research work relevant to the scope of the TRA VISIONS Senior Researcher Awards, and a set of Keywords that best represent the main research themes, areas of expertise, or contributions included in the application.
- Submissions must include a statement explaining how their research career has contributed to one (or more) of four key TRA 2026 research topics. Additionally, applicants must describe how their research has been or can be applied in the transport industry, its real-world impact, and how it has influenced EU transport policy and decision-making.
- Submissions must include a research track record (summarising up to 10 achievements over the past 10 years, covering publication history, patents, and research leadership) and a list of EU-funded projects they have been involved in over the past 10 years (including the CORDIS project link, the amount of funding received, and their specific role in each project).
- Incomplete or non-compliant submissions will be rejected.

3. Evaluation Process

- Eligibility check: Conducted by the TRA VISIONS organisers to verify compliance with requirements.

- Expert evaluation: Minimum two independent evaluators will assess each eligible submission, ranking entries according to the evaluation criteria:
 - Contribution to the four key TRA 2026 transport topics – 20 points (threshold 12 points)
 - Practical implementation and industry applications of the research – 20 points (threshold 12 points)
 - Impact of the research at the EU policy level – 20 points (threshold 12 points)
 - Research Track Record (top 10 achievements from the last 10 years) – 20 points (threshold 12 points)
 - EU funding involvement (list of projects, role, and proportion of funding over the past 10 years) – 20 points (threshold 12 points)
- Shortlisting workshop: The top 3-5 shortlisted entries per category will be reviewed in a workshop by evaluators from the European Comission, the TRA supporting organisations, and external experts to determine the winner per category (Road, Rail, Waterborne, Airborne, Crossmodal Passenger Transport, and Crossmodal Logistics).

4. Deadlines & Notification

- Any individual complying with the above criteria can submit their application under the Senior Researcher Awards track.
- The submission period is open from the date of abstract acceptance notification until 15/09/2025. **Deadline has been extended until 30/09/2025.**
- Any entries beyond this time will not be accepted unless an extension is granted.
- The winners for each category will be informed of the selection at least 8 weeks before the TRA 2026 Conference.

5. Award Benefits

- Each category winner (per transport category) will be invited to:
 - Be part of the conference programme.
 - Receive their award on the TRA 2026 stage.
- Each winner (per transport category) receive:
 - A trophy and a certificate recognising their achievement;
 - Acknowledgment on the TRA 2026 Conference website and social media.
 - A waiver for the TRA 2026 Conference attendance fee.
- Winners are responsible for organising their own accommodation, and travel to and from the TRA 2026 Conference in Budapest, Hungary.

6. Winner's duties

- The winners will be invited to attend the TRA 2026 Conference.
- Winners are expected to cooperate promptly with competition organisers for reasonable requests, including:
 - Providing additional materials.

- Engaging in publicity efforts for the TRA 2026 Conference.
- Participating in media activities related to their award.
- If a winner is unwilling to received the award, the organisers may award the prize to another shortlisted applicant.

7. Organisers' Discretion

- The judges' decision is final in all situations, including cases not explicitly covered in these rules.
- The organisers reserve the right to have discretion regarding the rules:
 - Change deadlines if deem necessary.
 - Not select a winner if no entries meet the required standard.
 - Cancel the Awards due to unforeseen circumstances beyond their control. In such cases, no costs will be refunded.

8. Data Protection & Confidentiality

- All submitted materials will be treated as confidential and used solely for evaluation purposes.

9. Ethical & Legal Compliance

- Anyone with a conflict of interest in the process, including during the expert evaluation and shortlisting events stages, shall not take part in the process.
- All applicants must comply with these rules to be eligible for awards, certificates, and financial contributions.
- The organisers are not responsible for:
 - Ineligible or fraudulent submissions.
 - Late or lost submissions due to internet issues (applicants are advised to submit early).
