

Instructions for submitting your paper to TRA2024

Abstract status: Accepted; please prepare short paper

- Your paper should be written in English.
- Short papers will NOT be published in the conference proceedings, however, we ask that you prepare your paper using the Springer template (provided below).
- Your paper must be 3 pages (maximum), including all text, references, figures, and tables. This template typically allows about 500 words of text per page.
- All authors should prepare their papers carefully. The work of the paper must be original and unpublished. All authors are requested to control the quality of their papers and plagiarism is absolutely not allowed.
- Large Language Models (LLMs), such as ChatGPT, do not currently satisfy our authorship criteria. Notably an attribution of authorship carries with it accountability for the work, which cannot be effectively applied to LLMs. Use of an LLM should be properly documented in the Methods section (and if a Methods section is not available, in a suitable alternative part) of the manuscript.

Submission Specification for Conference Papers for Publication

Your submission must follow the springer specific guidelines:

1. Authors must use the template provided by Springer, available on the TRA2024 website.

Word:

<https://resource-cms.springernature.com/springer-cms/rest/v1/content/19338734/data/v1>

LaTeX:

<https://resource-cms.springernature.com/springer-cms/rest/v1/content/19338728/data/v1>

Please note that our submission system does not accept LaTeX; a PDF can however be submitted if you wish.

Please note: The usage of these templates is mandatory.

2. Please prepare the paper in one-column format.

3. Please add under the title the authors' names, institution, city, country. Please do not add street or private addresses as this will show up on our webpage.
4. Each paper should begin with a brief abstract that summarizes its content in no more than 200 words.
5. Please avoid inserting equations as graphic files. Use the Math function of Word 2003 or 2007, MathType or Microsoft Equation Editor to create your equations.
6. Please include all affiliations and e-mail addresses (or at least the email address of the corresponding author) in the submitted paper.
7. If authors want to reuse material from previous publication, permissions should be obtained from the corresponding publisher. Usually, authors can GET PERMISSION online by using RightsLink <http://www.copyright.com/publishers/rightslink-scientific/> . In rare cases, they may need to contact the publisher directly. Moreover, Springer is a STM signatory publisher. If authors wish to reuse materials published by another signatory publisher, they can check the corresponding guideline for permission at <https://www.stm-assoc.org/intellectual-property/permissions/permissions-guidelines/>
